Welcome to ISSE 2009

Welcome to the 11th edition of ISSE. The conference was inaugurated in 1999 as an initiative of the European Commission, and is today organised by eema in conjunction with ENISA and TeleTrust. I would also like to thank the many sponsors, without whom ISSE would not be possible, as well as the Municipality of The Hague, for hosting ISSE 2009.

This year's ISSE, as ever, benefits from a full and broad-ranging programme of security-related presentations, panel discussions, debates and workshops. The programme has evolved and expanded over the years in recognition of the fact that security is an issue not only for IT experts, but for everyone involved in ensuring the success of electronic business throughout Europe.

I know that a large number of you have attended ISSE for many years, not only for the educational content of the programme, but also for the unparalleled networking opportunities that it offers. I thank you for your continuing support and trust that you will find this year's programme both stimulating and of real, practical benefit. Finally, I would like to thank the hundreds of people who contribute to ISSE, helping us to develop the content year on year, and ensuring that it remains relevant to all stakeholders in the security debate. I look forward to meeting up with you over the next few days.

A handwritten signature in black ink, appearing to read 'David Goodman', written in a cursive style.

David Goodman

Chairman, eema

Event Partners

■ eema

For 22 years, **eema** has been Europe's leading independent, non-profit e-Identity & Security association, working with its European members, governmental bodies, standards organisations and interoperability initiatives throughout Europe to further e-Business and legislation.

eema's remit is to educate and inform over 1,500 Member contacts on the latest developments and technologies, at the same time enabling Members of the association to compare views and ideas. The work produced by the association with its Members (projects, papers, seminars, tutorials and reports etc) is funded by both membership subscriptions and revenue generated through fee-paying events. All of the information generated by eema and its members is available to other members free of charge.

Examples of recent and future eema events include:

- Using RFID in Identity & Access Management Brussels
- Role Life Cycle Management and IAM Gent
- The European e-ID interoperability conference Brussels
(Featuring STORK, PEPPOL & epSOS)
- The use of public identifiers in the private sector Utrecht
- The European e-Identity Management Conference London
(Featuring the 2nd STORK Industry Group Meeting)
- Enterprise Data Protection London
Is IAM enough to meet Compliance Goals?
- ISSE (Information Security Solutions Europe) The Hague
- Identity in the Cloud – workshop and conference Munich

eema and its members are also involved in many European funded projects including STORK, ICEcom and ETICA

Any organisation involved in e-Identity or Security (usually of a global or European nature) can become a Member of eema, and any employee of that organisation is then able to participate in eema activities. Examples of organisations taking advantage of eema membership are Volvo, Hoffman la Roche, KPMG, Deloitte, ING, Novartis, Metropolitan Police, TOTAL, PGP, McAfee, Adobe, Magyar Telecom Rt, National Communications Authority, Hungary, Microsoft, HP, and the Norwegian Government Administration Services to name but a few.

www.eema.org

Tel: +44 (0)1386 793028

info@eema.org

■ European Network and Information Security Agency (ENISA)

Objectives:

ENISA was set up to enhance the capability of the European Union, the EU Member States and the business community to prevent, address and respond to network and information security problems. In order to achieve this goal, ENISA is a Centre of Expertise in Network and Information Security and is stimulating the cooperation between the public and private sectors.

www.enisa.europa.eu
Tel: +30 (0)2810 39 12 80
info@enisa.europa.eu

■ TeleTrust Deutschland e.V. & Partners

The association TeleTrust was founded in 1989 to establish reliable conditions for the trustworthy application of information and communication technologies. TeleTrust quickly developed into a well known competence network for IT Security whose voice is heard throughout Europe. Today TeleTrust represents more than 90 members from industry, science and research as well as public institutions. In project groups on current questions in IT Security and Security Management the members exchange their know-how.

The following partners will be exhibiting together with TeleTrust at ISSE 2009:

Bundesdruckerei GmbH, Giesecke & Devrient GmbH, Sirrix AG, QGroup GmbH, WMC Wuepper Management Consulting GmbH

info@teletrust.de

General Information

2009
ISSE

Opening Times

Tuesday 6 October

Registration	from 09.00
Conference & Exhibition	10.00 - 18.00

Wednesday 7 October

Registration	from 08.30
Conference & Exhibition	09.00 - 17.30

Thursday 8 October

Registration	from 09.00
Conference & Exhibition	09.30 - 14.30

Conference Networking Dinner & Entertainment

Please join us at a special networking evening on Wednesday 7 October for delegates, speakers and sponsors. Your place is included in the full conference fee, itinerary as follows:

Conference Networking Dinner, The Kurhaus	18.30 – 20.00
Conference Networking Entertainment, The Holland Casino Scheveningen*	20.00 onwards

**Please note that you will require a form of photo identification to access the Casino (for example a passport or driving license with a photo).*

Coffee Breaks and Lunches

All lunches and coffee break refreshments are provided. Please return to the conference sessions promptly at the end of each break to ensure that sessions do not over-run.

Identification

Please wear your badge throughout the day as a courtesy to other delegates and to help us to find you if we need to contact you.

Breakout Sessions

The daily programme includes both plenary and breakout sessions. Please refer to the Conference Programme within this Conference Planner to identify the breakout sessions you wish to attend. You do not have to book into these breakout sessions beforehand.

To keep noise levels to a minimum, if you wish to use your laptop during sessions please ensure that you consider other delegates and speakers.

Speaker Presentations

Out of courtesy, please turn off your mobile phone during the sessions. Shortly after the conference you will be contacted by email with details of how to download the presentations.

Delegate Comfort

If you experience any difficulty in seeing the screen or hearing the speaker or find the room too hot or too cold, please let a conference member of staff know and we will do our best to correct it.

Internet Connection

WiFi access, provided by Swisscom is available throughout the Kurhaus Hotel conference suites. After selecting the Swisscom wireless signal please open your internet browser and you will be automatically redirected to the login page where you have the option to login via credit card directly or via a voucher available at the reception. Please see below for the two cost options:

1. €22 for 24 hours per user
2. €88 for 7 days

This connection provides you with unlimited download capabilities and supports VPN requirements.

NB There is also a complimentary WiFi service available throughout the Kurhaus Hotel's public areas (lobby, etc) and bedrooms. This connection is limited to 128kbit/sec and 200mb download and does not support VPN requirements. We do not recommend the use of this service in the conference rooms.

Evaluation Form

A printed evaluation form will be available in your delegate pack. Please return the form to either the registration desk on-site or post it to the address specified as your feedback is extremely valuable and will be used to progress this event in the future.

Please note that all information contained in the Conference Planner was correct at the time of going to print. The organisers cannot be held responsible for any alterations to the programme or its contents after its publication.

Opening Plenary Welcome Addresses:

Frits Huffnagel (Vice Mayor and alderman for International Affairs, Municipality of The Hague), Norbert Pohlmann (Chairman of the Board, TeleTrust, Germany), David Goodman (Chairman of the Board, eema, UK), Ermelinda Vermeulen (General Manager, IIR, The Netherlands), Steve Purser (Head of Technical Competency Department, ENISA)

Coffee and Networking Break

Opening Plenary Keynotes:

Andrea Servida, Deputy Head of Unit, European Commission, Information Society and Media Directorate General

Open Standards for Electronic Documents and Digital Signatures - *Jim King, PDF Platform Architect, Adobe Systems Incorporated, USA*

Community Based Defense in Action - The Microsoft Security Response Process explained - *Mike Reavey, Director, MRSC, Microsoft, USA*

European Market Survey: end users about the maturity of Identity and Access Management - *Peter Valkenburg, CTO, Everett & John Hermans, Associate Partner, KPMG IT Advisory, The Netherlands*

Lunch Break

■ ISSE-Track 1

Security Management & Economics of Security
Chair: Jeremy Hilton, Lecturer, Cardiff University, UK

Demystifying SAP Security

Marc Sel, Director, PricewaterhouseCoopers, Belgium

The ISACA Business Model for Information Security an Integrative and Innovative Approach
Rolf von Roessing, Member ISACA Global Security Management Committee, KPMG / ISACA, Germany

■ ISSE-Track 2

Data Loss Prevention
Chair: Helmut Reimer, Senior Consultant, TeleTrust, Germany

Data the Real Need for Security

Brendan Rizzo, EMEA Data Protection Specialist, McAfee, UK

Data Leakage Prevention in Trusted Virtual Domains
Rani Hussein, Systems Architect, Sirrix, Germany

■ ISSE-Track 3

Large Scale Public Applications
Chair: Roger Dean, Executive Director, eema, UK

Combining Integrated Government Services and Individual Privacy Protection the Belgian Approach
Jos Dumortier, Professor of Law & Frank Robben, Lecturer, K.U. Leuven, Belgium

Cross-border Interoperability of eSignatures: stepwise actions meeting challenges and key success factors
Olivier Delos, Managing Director, Sealed, Belgium

10.00-11.00

11.30-11.30

11.30-13.00

13.30-14.30

14.30-16.00

<p>16.00-16.30</p>	<p>ICT Contributing to Secure-by-design Infrastructures <i>Fabien Cavenne, Security Risk Management Consultant, THALES, UK</i></p>	<p>The Operational Manager; The Enemy or the Hero of Secure Business Practice? <i>Wendy Goucher, Security Empowerment Consultant, Idrach Limited, UK</i></p>	<p>Cross-border e-Procurement with a Trusted Third Party Service <i>Jon Shamah, EMEA Sales Manager, BBS eSecurity, UK</i></p>
<p>16.30-18.00</p>	<p>Coffee and Networking Break</p>	<p>Securing the Cloud <i>Chair: Jaap Kuipers, Senior Advisor, DigiNotar, The Netherlands</i></p>	<p>Session continued <i>Chair: Robert Garskamp, Senior Project Manager, Everett, The Netherlands</i></p>
<p>16.30-18.00</p>	<p>Session continued <i>Chair: Lucas Cardholm, Director, Ernst & Young, Sweden</i></p>	<p>Externalization, Cloud Computing and the Transformation of IT Security <i>Gerry Gebel, Vice President, Burton Group, USA</i></p>	<p>The Virtual Signing Room: a new way to conceive notary offices, slim down bureaucracy and employ digital signature <i>Riccardo Genghini, Notary, SNG, Italy</i></p>
<p>16.30-18.00</p>	<p>Extending Risk and Compliance Management to Your Supply Chain <i>Simon Oxley, Managing Director, Citicrus Limited, UK</i></p>	<p>Panel Discussion</p>	<p>The German "Bürgerportal" - A Secure Email and e-Government System? <i>Christoph Wegener, Project Leader, Horst Görtz Institute for IT Security, Germany</i></p>
<p>16.30-18.00</p>	<p>Measuring Information Security Guidelines to Build Metrics <i>Eberhard von Faber, Security Strategy and Executive Consulting, T-Systems, Germany</i></p>	<p>Stuart McRae, Executive Collaboration Evangelist, IBM, UK</p>	<p>Best Practices for National PKI Projects <i>Phil D'Angio, Director of Business Development, EMEA, VeriSign, UK & Panos Vassiliadis, General Manager, ADACOM SA, Greece</i></p>
<p>16.30-18.00</p>	<p>A New Look at ROI with an Enterprise Smart Card Deployment <i>Philip Hoyer, Senior Architect, ActivIdentity, UK</i></p>	<p>Erik van Zuuren, Senior Manager, Deloitte Enterprise Risk Services, Belgium</p>	<p>Bruno Quint, Managing Director, CORISECIO, Germany</p>

Conference Programme DAY 2, WEDNESDAY 7 OCTOBER 2009 9.00 – 17.30

Trusted Computing – How to Support the Application of TPM Infrastructures
 Moderator: *Dr. Markus Dürig, Head of Division IT 3, Federal Ministry of the Interior, Germany*
 Panellists: *Thomas Rosteck, Vice President & General Manager, Infineon Technologies, TCG Board of Directors, Germany; Gerold Hübner, Government Security Director, Microsoft, Germany; Patrick Schraut, Business Development Manager, Integralis, Germany; Klaus Herfurthner, Manager Business Development, Defense AG, Germany*
 Hosted by *TeleTrust*

Entitlement Management by XACML
Finn Frisch, Business Development Manager, Axiomatics, Sweden.
 Hosted by *Axiomatics*

Competing Approaches to Cloud Computing Security
Rick Gordon, Managing Director, Civitas Group, USA

9.00-10.30	Coffee and Networking Break		
10.30-11.00	<p>■ ISSE-Track 1 Identity & Access Management Chair: <i>Wolfgang Schneider, Deputy Institute Director, Fraunhofer Institute SIT, Germany</i></p> <p>Kantara Initiative <i>Matthew Gardiner, Senior Principal, CA, Inc, USA</i></p>	<p>■ ISSE-Track 2 Threats and Solutions Chair: <i>Ronny Bjones, Security Strategist, Microsoft EMEA, Belgium</i></p> <p>Databreach Report 2009 <i>Matthijs van der Wel, Managing Principle Forensics, Verizon Business, The Netherlands</i></p>	<p>■ ISSE-Track 3 Privacy and Data Protection Chair: <i>Jos Dumortier, Professor of Law, K.U. Leuven, Belgium</i></p> <p>Privacy and Security – a Way to Manage the Dilemma <i>Walter Peissl, Senior Researcher & Deputy Director, Austrian Academy of Sciences, Austria</i></p>
11.00-12.30	<p>A General Quality Classification System for eIDs and e-Signatures <i>Jon Ølnes, Senior Advisor, DIFI, Norway</i></p>	<p>When Web 2.0 Sneezes, Everyone Gets Sick <i>Stefan Tanase, Senior Security Researcher, Kaspersky Lab, Romania</i></p>	<p>■ ISSE-Track 4 Special Interest</p> <p>Strong Authentication with eID Cards: user acceptance or “Do I really need it”? <i>Karin Loleit, Technical Account Manager, Nexus Technology, Germany</i> Hosted by <i>Nexus Technology</i></p>
	<p>EU Regulations and Programs on eID. Next Step eResidence Permit Card <i>Detlef Houdeau, Senior Director Business Development, Infineon, Germany</i></p>	<p>User Privacy in RFID Networks <i>Stefaan Seys, Dave Singelée, Senior Consultants, PricewaterhouseCoopers, Belgium</i></p>	<p>Taking Trusted Credentials One Step Further <i>John Bys, Executive Vice President, CoreStreet, USA</i> Hosted by <i>CoreStreet</i></p>
	<p>WADS Web Anomaly Detection System <i>Manuel Garcia-Cervigón Gutiérrez, Research Officer, Universidad Politécnica de Cataluña, Spain</i></p>	<p>Approaches to Measuring Anonymity <i>Giusella Finocchiaro, Professor, University of Bologna, Italy</i></p>	<p>Security and Encryption on the Move – Balancing Security with Usability <i>Sinisha Patkovic, Senior Manager, BlackBerry Security EMEA, Research In Motion, France</i> Hosted by <i>BlackBerry®</i></p>

12.30-14.00

Lunch Break

Panel: The Malware Challenge in the Next Year

Moderator: Norbert Pohlmann, Professor, Institute for Internet-Security - University of Applied Sciences Gelsenkirchen, Germany
Panelists: Felix Freiling, Professor, Laboratory for Dependable Distributed Systems, University Mannheim, Germany; Rolf Strehle, CISO, Voith AG, Germany; Ronny Bjones, Security Strategist, Microsoft-EMEA, Belgium; Marius van Oers, Research Scientist, McAfee, The Netherlands; Chris Bender, Security Product Manager, Research In Motion, Canada

TeleTrust Awards Ceremony

15.30-16.00

Coffee and Networking Break

Enterprise Security Services

Chair: Marijke De Soete, Managing Director, Security4Biz, Belgium

Security for Services: the state of play today

Matthew Gardiner, Senior Principal, CA, Inc., USA

Entitlement Management Ready to Enter the Identity Management Mainstream

Alice Wang, Director & Gerry Gebel, Vice President, Burton Group, USA

Secure E-Mail Communication Across Company Boundaries: experiences and architectures

Markus Wichmann, Siemens AG, Germany

Trust and Assurance

Chair: Walter Fumy, Chief Scientist, Bundesdruckerei, Germany

Protecting Long Term Validity of PDF Documents with PADeS-LTV

Nick Pope, Principal Consultant, Thales, UK

RE-TRUST: Trustworthy Execution of Software on Remote, Untrusted Platforms

Brecht Wyseur, Senior Researcher, KU Leuven, Belgium

Future of Assurance Ensuring that a System is Trustworthy

Claire Vishik, Privacy/Security Technology Manager, Intel, UK

Round Table: Secure Software Development

Chair: Bart Preneel, Professor, K.U. Leuven, Belgium

Ari Takanen, CTO, Codenomicon Ltd., Finland

Ton van Opstal, Software Architect, Ericsson, The Netherlands

Markus Bartsch, Marketing & Sales, TÜVIT, Germany

Ahmad-Reza Sadeghi, Professor, Ruhr-University Bochum, Germany

John Colley, Managing Director, (ISC)2, EMEA

Special Interest continued

Enhance Security with IAM: one step at a time...

Paul Leunissen, Senior Architect, The Ministry of Housing, Spatial Planning and Environment (VROM), The Netherlands
Hosted by Novell Nederland B.V.

Hey! Who's got my document? Lessons learned in secure copying, printing and scanning

Jens Stark, Manager Information Security & Solutions, Sharp, Germany
Hosted by Sharp

Versatile Authentication Service: the future of secure access

Tord Fransson, Product Manager, NordicEdge AB, Sweden
Hosted by Nordic Edge AB

9.30-10.30	<p>■ ISSE-Track 1 Awareness Raising and Social Engineering <i>Chair: Gunter Bitz, Director Fraud Prevention Competence Center, SAP AG, Germany</i></p>	<p>■ ISSE-Track 2 ENISA Session Identity Management as the Heart of Security Policy <i>Chair: Jeremy Beale, Senior Expert in Relations with Stakeholders, ENISA, European Union</i></p>	<p>■ ISSE-Track 3 Information Security at the Municipality of The Hague <i>Chair: Marcel Bakker, ICT Consultant at BSD /POI (Central ICT-Staff Department), The Netherlands</i></p>
	<p>Social Engineering Hits Social Commerce <i>Werner Deegenhardt, Academic Director, University Munich & Johannes Wiele, Senior Executive Consultant, Defense AG, Germany</i></p>	<p>Privacy and Security Risks when Authenticating in the Internet with European eID Cards <i>Ingo Naumann, Seconded National Expert, ENISA, European Union</i></p>	<p>Business Impact Analysis and Risk Management <i>Marcel Bakker, ICT Consultant, BSD/POI (Central ICT-Staff Department), The Netherlands</i> Security of e-Government Services <i>Antoine Wijsman, CISO a.i., BSD/POI (Central ICT-Staff Department), The Netherlands</i></p>
	<p>Simple & Secure: attitude and behaviour towards security and usability in internet products and services at home <i>Reinder Wolhuis, Senior Consultant, TNO ICT, The Netherlands</i></p>	<p>Identity Management and the Role of ENISA: A Banking Perspective <i>Dr. Wim Hafkamp CISSP LL.M., Rabobank Nederland, The Netherlands</i></p>	<p>Information Security Awareness <i>Pieter van Houten, asst. CISO a.i., BSD/POI (Central ICT-Staff Department), The Netherlands</i></p>
10.30-11.00	Coffee and Networking Break		
11.00-12.30	<p>Session continued</p>	<p>Network Oriented Security <i>Chair: Jon Shamah, EMEA Sales Manager, BBS eSecurity, UK</i></p>	<p>Technical Solutions and Standards <i>Chair: Riccardo Genghini, Notary, SNG, Italy</i></p>

<p>How to Establish Security Awareness in Schools <i>Anja Beyer, IT Security Consultant, Generation: Secure, Germany</i></p>	<p>Large Scale PKI Based e-ID in Mobile Phones: The Norwegian BankID Scheme extends roaming capabilities by emerging into the mobile phone domain <i>Semming Austin, Managing Director, BankID Norge, Norway</i></p>	<p>Creating Non-hierarchical Trust Domains for Healthcare Applications with ETSI TSL <i>Arno Fiedler, PKI-Architect & external consultant, gematik, Germany</i></p>
<p>Panel Discussion <i>Wendy Goucher, Security Empowerment Consultant, Idtrach Limited, UK</i> <i>Werner Degenhardt, Academic Director, University Munich, Germany</i> <i>Johannes Wiele, Senior Executive Consultant, Defense AG, Germany</i> <i>Reinder Wolthuis, Senior Consultant, TNO ICT, The Netherlands</i> <i>Anja Beyer, IT Security Consultant, Generation:Secure, Germany</i> <i>Klaus Schimmer, Director Government Relations, SAP AG, Germany</i></p>	<p>Secure Network Zone <i>Peter Kai Wimmer, Senior Security Consultant, atsec information security GmbH, Germany</i></p> <p>KryptoNAS Open Source Based NAS Encryption <i>Martin Oczko, Business Development Engineer, Utimaco, Germany</i></p>	<p>Registered E-Mail: REM a technical specification is available that provides a solution to a real need <i>Luca Boldrin, Project Manager, InfoCert S.p.a., Italy</i></p> <p>A New IT Security Standard for Preventing Tax Fraud <i>Norbert Zisky, Head of WG data communication and security, Physikalisch-Technische Bundesanstalt & Mathias Neuhaus, System Engineer, cryptovision, Germany</i></p>

12.30-13.30 The Cryptographic Year in Review: Bart Preneel, Professor, K.U. Leuven, Belgium

Sponsors and Exhibitors

We would like to thank all ISSE 2009 Sponsors and Exhibitors for their support and contribution to the success of the event. Delegates will be able to meet with Exhibitors during the programme breaks and again informally throughout the duration of the event.

Sponsor & Exhibitors Information

■ AdinSec

For more than 7 years, AdinSec has focused on advising and assisting Benelux organisations in their Identity & Access Management and Identity Governance projects. They use a pragmatic and phased approach to allow organisations to conduct their project in manageable steps - each step delivering its own benefits and profits.

In the Benelux countries, AdinSec represents SailPoint, a leading supplier for Identity Governance with Identity Intelligence (IIQ), and Beta Systems offering SAM Jupiter, the most complete and fine-grained provisioning solution in the market.

www.adinsec.com
Tel: +32 (0)16 48 21 01
desire.noel@adinsec.com

■ AEP Networks

AEP Networks offers secure communications, networking and application access for governments, defence forces & enterprise businesses. Working with system integrators, service providers, distribution channels and end customers we deliver wide ranging integrated solutions, including; high assurance encrypted networking via IPsec based VPN encryptors, and for remote access to networking and applications including virtual environments; application layer security gateways and SSL VPNs. For secure deployable communications, utilising government, enhanced and commercial grade encryption providing secure voice and multi-service data platform that are able to support a wide range of legacy and IP communications protocols, network gateways and topologies.

■ DigiNotar

For the past ten years, DigiNotar has provided the Netherlands with trust and security solutions, such as identity management, electronic signatures, reliable document exchange and electronic archiving; all used for conducting business over the Internet.

DigiNotar also supplies every type of identification resource, from the simplest username and password systems, via identification with your mobile phone or bank card, to the strongest type in the shape of electronic signatures on smart cards.

After many years of success in the Netherlands, DigiNotar is now targeting the European market. As an Internet Trust provider, DigiNotar supplies products and services that make the use of the Internet more secure. They are a supplier of notary assurance to the government, business services (accountants, lawyers, notaries) and the manufacturing industry.

■ ECP-EPN

ECP-EPN is an independent platform where government, the business community and social institutions come together to exchange knowledge and cooperate to exploit the opportunities that the information society provides and to eliminate threats. Various projects, studies and discussions bind these parties and put the social significance of ICT on the agenda of politics, government and the business community. In that way the platform achieves breakthroughs and creates the right preconditions.

■ eDR EUROPE

We are a small company of IT and Supply Chain Professionals who understand the issues faced by companies of all sizes who are looking to protect their own confidential information or that of their customers.

Our unique product, the eDR Hard Disk Crusher, has established our place in IT Security industry. Physical destruction of computer hard disk drives has never been quicker or easier - with visual verification of total data destruction speedily achieved on every crushed drive. Disk crushing using the 19" high, fully transportable HDC-V is a simple and safe way to ensure that confidential information remains confidential by destroying it in 10 seconds, totally and permanently.

■ (ISC)²

(ISC)²® is the not-for-profit global leader in educating and certifying information security professionals. This year, we're celebrating our 20th anniversary and now have over 60,000 members in more than 130 countries. (ISC)² issues the Certified Information Systems Security Professional (CISSP®), Certified Secure Software Lifecycle Professional (CSSLP^{CM}), Certification and Accreditation Professional (CAP®), and Systems Security Certified Practitioner (SSCP®) credentials to those meeting necessary competency requirements. (ISC)² certifications are among the first information technology credentials to meet the stringent requirements of ANSI/ISO/IEC Standard 17024, a global benchmark for assessing and certifying personnel.

■ Nexus Technology

Nexus works internationally with information, e-communication and security solutions. Our clients are companies and organisations for which IT and the Internet are essential to the management of sensitive information and knowledge.

Nexus offers the market's perhaps broadest and most comprehensive portfolio of integrated security solutions, with product development based on our 25 years of experience and market demands for next generation security and messaging solutions. Digital identification and signatures are used to fulfill requirements for the confidentiality, traceability, correctness and availability of information distributed via digital media. At the same time, digital identities and signatures ensure that only the right users have access to the right information.

■ Oxford Computer Group

OCG has deployed over 400 enterprise-wide identity and access solutions, and trained over 4000 people on Microsoft IDA technologies. We combine the collective knowledge of internationally regarded IDA specialists with results driven solutions. In addition we provide solutions that can audit and analyse access across heterogeneous systems and provide reporting to support other identity functions (including role mining and identity audit) and compliance.

Our unique approach has made us the chosen partner of some of the world's leading technology providers. It is also why we are the chosen implementer of IDA solutions for some of the world's best known brands.

■ Quest Software

Quest Software delivers innovative products that help organisations get more performance and productivity from their applications, databases, Windows infrastructure and virtual environments. Quest One Identity Solutions is a set of enabling technologies for simplifying identity and access management. These enable you to do three things. Firstly they improve efficiency by automating and consolidating your identity infrastructure based on existing investment in Active Directory (AD). Secondly they enhance security by implementing stronger authentication for multiple systems—including smart cards and tokens and lastly they achieve compliance with powerful and integrated audit, reporting, and enforcement tools.

■ Security-News.tv

Security-News.tv is the first and only B2B broadcast communication channel addressing the international security industry. The channel incorporates video and audio interviews, video product demonstrations, networking opportunities and a quarterly publication - The Security Vault. The Channel has a clear focus on identification applications, access control applications and all topics concerning biometrics.

Security-News.tv offers a completely new B2B approach to PR and Marketing Communications. By promoting a person, product or a solution through video or audio podcasts, those companies involved with Security-News.tv will extend the reach of their strategic messaging and visibility dramatically and at the same time extend the shelf-life of communication investments such as show booths or company showrooms.

■ Sharp

Sharp Business Solutions Group, a division of Sharp Electronics, provides innovative office solutions that meet the needs of today's information technology-oriented businesses.

Our range of digital copiers, printers and multifunction devices have a number of options to protect your data and documents from unauthorised access. These include for example a sophisticated firewall to eliminate hacking attempts, a secure printing mode that prevents the output of a document until the user is present and the Data Security Kit.

Sharp's Data Security Kit includes powerful encryption algorithms as well as secure overwriting of any stored data, and was the industry's first Common Criteria validated solution for document and information security.

■ tools4ever

Tools4ever is a Dutch software company, located in Baarn (The Netherlands). Tools4ever provides software and consulting services in the field of Identity and Access Management (IDM | IAM) solutions. Implementations of tools4ever vary in size from 300 user accounts to networks with a size of over 40,000 user accounts.

Tools4ever distinguishes itself with its no-nonsense approach, providing a complete Identity Management solution in just a couple of days instead of a couple of weeks or months. Partly thanks to this approach, tools4ever is the indisputable market leader in the field of Identity Management. To tools4ever, it is very important that implementations meet the expectations of the customer and that the implementation generates the expected results.

■ Traxion

Traxion is the Identity and Access Management (IDM) expert in the Benelux area. With its focus entirely on IDM mainly operating in the enterprise market, Traxion is unique in its kind. Unlike our competitors, Traxion has no commercial or financial alliances, only technology partnerships. Traxion is a solution provider, not a reseller.

Given the broad scope of enterprise requirements regarding IDM, prioritising projects can be challenging. Traxion consultants can support your organisation in the process from idea and design toward development and deployment. Traxion Services can manage and support your operational Identity and Access Management solution.

Our main success factors are our experience combined with knowledge, expertise and enthusiasm. Furthermore we are characterised by our:

• Independence • Commitment • Quality • Clarity.
