The European e-Identity Management Conference

9-10 June 2010
Cardinal Place, 100 Victoria Street, London

www.eema.org/eema2010

Organised by
In collaboration with
Since 1987, EEMA has consistently been at the forefront of business and technology developments in Europe, with a constantly evolving vision of how the European business and government sectors could expect to develop and grow in an ever-changing Internet-driven world.

EEMA has led many of the international debates on digital identity and security services for over fifteen years. Core to our vision is the enablement of cross-border interoperability of digital identity systems that will make the daily lives of all Europeans easier, safer and simpler. Through the growing pervasive influence of digital identity-based systems, more and more significant aspects of the lives of citizens are impacted each year and it is our collective responsibility through cross-sector co-operation to ensure the benefits that can accrue through these changes.

Building upon the reputation generated by this event over the past few years, the 2010 e-Identity Management conference addresses current and emerging issues in identity management, social networking, reputation and webs of trust. During the course of over thirty sessions, comprising a modular programme of keynotes, breakout sessions, panel discussions and interactive roundtables, you will have the opportunity to listen to and interact with leading industry luminaries and digital identity specialists from across Europe, North America and the rest of the world.

I would like to thank all of our sponsors and partners for helping us to put this year’s activities together. As always, we couldn’t, nor would we want to, do what we do alone. It is core to our mission to collaborate with others to deliver an exciting and comprehensive programme with great opportunities to network. I hope that you will find your participation worthwhile, rewarding and insightful; and that you will stay with us on the exciting journey ahead.

David Goodman, Chairman, EEMA
Dear conference delegates,

On behalf of the OASIS IDtrust Member Section, it is my pleasure to welcome you to the European e-Identity Management Conference. We are honoured to co-host this conference with EEMA once again.

We have planned a programme over the next two days that will focus on Identity and the ‘Web of Complexity’ that grows out of successes currently underway in the Identity management community. During the OASIS track, speakers will address solutions and solicit ideas to help unravel the particulars in conducting business over the Internet and in the Cloud. With the demand of faster, cheaper and easier access to information over the Internet, companies are fulfilling the request in order to stay competitive. We, as a security standards community understand the risks associated with this open access and continue to invent sound solutions.

Education and awareness is the cornerstone of our success. We believe that this year’s conference will bring even greater value to participants, because it not only offers a forum for the exchange of ideas, but also provides a neutral playing field for putting those ideas into practice, and for collaborating on solutions to address real problems.

Best wishes for a most productive conference,

June Leung, OASIS IDtrust Steering Committee Chair

---

Opening Times

**Wednesday 9 June**
- Registration From 09.00
- Network meeting area open 09.00 - 17.45
- Conference open 10.00 - 17.45
- EEMA General Assembly 17.45
- Conference drinks reception 17.45 - 19.00

**Thursday 10 June**
- Registration From 08.45
- Network meeting area open 08.45 - 15.30
- Conference open 09.00 - 16.30
- EEMA General Assembly

**Wednesday 9 June 17.45**
The meeting will take place at the end of Day 1 and is open to all delegates.

**Conference Drinks Reception & Networking**

**Wednesday 9 June 17.45 – 19.00**
Please join us for this special networking event open to delegates, speakers and sponsors. Your place is included in the conference fee.

**Coffee Breaks and Lunches**
All lunches and coffee break refreshments are provided. Please adhere to staff requests to ensure that queues are kept to a minimum. Please return to the conference sessions promptly at the end of each break to ensure that sessions do not over-run.

**Breakout Sessions**
The conference programme includes both plenary and breakout sessions. Please refer to the Conference Programme within this planner to identify the breakout sessions you wish to attend. Please note you do not have to book into these breakout sessions beforehand.
Conference Programme: Day 1
> Wednesday 9th June 2010

Speaker Presentations

Out of courtesy, please turn off your mobile phone during the sessions. Shortly after the conference you will be contacted by email with details of how to download the presentations.

Documentation & Badges

When you arrive at registration, you will receive your badge, and conference materials. Please wear your badge throughout the event as a courtesy to other delegates and it will also help us find you should we need to get a message to you.

Internet Connection

Free of charge WiFi connection will be available in the main plenary and network meeting area. Please request your WiFi access code at the registration desk.

Evaluation Form

A printed evaluation form will be available with your conference materials. Please return the form to either the registration desk on-site or post it to the address specified as your feedback is extremely valuable and will be used to progress this event in the future.

09.30 Registration, Coffee & Network Meeting Area

09.00 WELCOME AND MORNING KEYNOTE SESSIONS The Auditorium

- Introductions, Scene-Setting and Opening Comments
  - Conference Chair: David Goodman, Chairman, EEMA, UK

- Welcome on behalf of The Mayor of London
  - Emer Coleman, London Alliances Project Director, Greater London Authority

- Opening Address
  - June Leung, Owner, jULE Consulting Inc. & Chair, OASIS IDTrust Member Section Steering Committee

- The Three Faces of Identity
  A thought-provoking panel session examining the ethical, legal and technical aspects of identity management via electronic mechanisms. Three industry specialists provide unique perspectives on privacy issues, data protection legislation and the security implications of emerging technologies such as cloud computing

  - The Ethical Perspective:
    - Alexander Hanff, Head of Ethical Networks, Privacy International

  - The Legal Perspective:
    - Belinda Lewis, Head of Information Policy, Ministry of Justice

  - The Industry Perspective:
    - How will The Cloud impact Digital Identity?
    - Kim Cameron, Chief Architect of Identity & Access, Microsoft

12.00 Lunch Break and Networking

13.15 CONCURRENT BREAKOUT TRACKS

Choice of three interactive breakout tracks (interchangeable throughout the day)

EEMA, TRACK A Auditorium 2

- Chaired by Martin Linda, Siemens IT Solutions and Services

> The Challenges and Solutions of Federated e-ID Management

- A1 (13.15 – 13.45)
  Online Services and Identity Management: Driving Innovations through a Cross Sector Vision
  Olivier Maas, Atos Worldline
  Ludovic Francesconi, Cartes Bancaires

- A2 (13.45 – 14.15)
  Identity Federation: Lessons From the Trenches
  Nalneesh Gaur CISSP, Diamond Management & Technology Consultants, Inc.

- A3 (14.15 – 14.45)
  EU OpenID Trust Profile
  Kick Willemse, OpenID Foundation

- A4 (14.45 - 15.15)
  Demystifying the Magic of U-Prove
  Ronny Bjones, Microsoft

Please note that all information contained in the Conference Planner was correct at the time of going to print. The organisers cannot be held responsible for any alterations to the programme after its publication.
Conference Programme: Day 1
> Wednesday 9th June 2010 - CONTINUED

OASIS, TRACK B  Auditorium 1
• B1 (13.15 - 14.00)
  - Chaired by June Leung, jULE Consulting Inc. & OASIS IDTrust
  Member Section Steering Committee
  The New Identity Model, the Cloud and Identity Standards
  Martin Kuppinger, Co-Founder, Kuppinger Cole
• B2 (14.00 - 15.15)
  - Chaired by Matthew Gardiner, CA, Inc.
  Web Security Standards: The Foundation of Cloud Security
  Abbie Barbir, Bank of America
  Christian Brindley, VeriSign
  Ronny Bjones, Microsoft

Digital Identity Forum, TRACK C  Meeting Room 5
- Chaired by John Bullard, IdenTrust
  > Identity is the New Money - Presentations
• C1 (13.15 - 13.45)
  Trust Frameworks- Enabling Trust between Public and Private Sectors
  John Skipper, PA Consulting
• C2 (13.45 - 14.15)
  RBS TrustAssured: Practical Examples of High Assurance Bank Issued eID’s
  George Evers, RBS
• C3 (14.15 - 14.45)
  Session title tbc
  Vincent Jansen, Innopay
• C4 (14.45 - 15.15)
  Touch2ID- An NFC Example of Minimal Disclosure Technology- without a Database
  Giles Sargant, Touch2ID

OASIS, TRACK E  Auditorium 1
• D1 (15.45 – 16.15)
  Mediating the Connection to Multiple Cloud Service Providers
  Mark O’Neill, Vordel & Cloud Security Alliance Identity and Access Management Working Group Member
• D2 (16.15 – 16.45)
  Leveraging Government Standards for Enterprise eID and the Mobility Cloud
  Philip Hoyer, ActivIdentity

Digital Identity Forum, TRACK F  Meeting Room 5
- Chaired by David Birch, Consult Hyperion
  > Identity is the New Money - Panel Discussions
• F1 (15.45 – 16.45)
  The Identity Business
  Joe Norburn, IdenTrust
  John Lunn, Paypal
  Jan Dart, Bell ID
  Todd Facemire, Barclays
• F2 (16.45 – 17.45)
  Identity and the Consumer
  Peter Bradwell, DEMOS
  Henry Potts, UCL
  Marc Dautlich, Olswang

15.15  Tea / Coffee Break and Networking

15.45  CONCURRENT BREAKOUT TRACKS

  Choice of three interactive breakout sessions (interchangeable throughout the day)

EEMA, TRACK D  Auditorium 2
- Chaired by Robert Garskamp, Everett
  > Securing the Enterprise – eID & the Cloud
• D1 (15.45 – 16.15)
  Making Public Key Infrastructure a Feature of Identity Management
  Klaus Schmeh, Cryptovision
• D2 (16.15 – 16.45)
  Evolving your Security Infrastructure for the Cloud
  Shirief Nosseir, CA, Inc.

17.45  Close of Day One Conference
17.45  EEMA General Assembly (open to all delegates)
17.45  CONFERENCE COMPLIMENTARY DRINKS RECEPTION AND NETWORKING

   Special networking event for delegates, speakers and sponsors
Conference Programme: Day 2
> Thursday 10th June 2010

07.45 VeriSign Breakfast Briefing

08.45 Registration, Coffee & Network

09.00 CONCURRENT BREAKOUT TRACKS

Choice of two interactive breakout sessions (interchangeable throughout the day)

EEMA TRACK G
- Chaired by Roger Dean, EEMA
> eIdentity in Practice
  • G1 (9.00 – 9.30)
  Case Study: Cloud-based eIdentity - Learning from Early Adopters
  Wouter Meijers, Everett
  • G2 (9.30 – 10.00)
  Securing EU Subsidies to Farmers with eID: Challenges and Solutions for Interoperability
  Antonio Colaianni, Nestor – Tor Vergata University
  • G3 (10.00 – 10.30)
  How to Run Alcatraz!
  Mark Courtney, GB Group

OASIS TRACK H
- Chaired by John Borras, Pensive SA & OASIS eGov Member Section
> Privacy in the Cloud: Who Defines Data Protection Requirements and How We Balance Information Usage and Privacy?
  Robin Wilton, Future Identity Ltd & Kantara Initiative
  • H1 (9.00 – 10.30)

10.30 Tea / Coffee Break and Networking

11.00 CONCURRENT BREAKOUT TRACKS

Choice of two interactive breakout tracks (interchangeable throughout the day)

EEMA TRACK J
- Chaired by Christian Brindley, VeriSign
> Cloud & Mobile Identity Services – The Opportunities
  • J1 (11.00 – 11.30)
  Session title tbc
  Speaker tbc
  • J2 (11.30 – 12.00)
  Mobile ID in Estonia: Matching ID-Card Security in Mobile Way
  Tarvi Martens, AS Sertifiseerimiskeskus (SK)
  • J3 (12.00 – 12.30)
  How to Simplify the Selection of an Identity Provider when the User Authenticates on a Site?
  Philippe Clement, Orange

OASIS TRACK K
- Chaired by Bilel Jamoussi, Telecommunications Standardization Bureau
  • K (11.00 – 12.30)
  Enhanced Cybersecurity Techniques from the Arab ICT Organisation
  Manel Abdelkader, Chief Certification & PKI Unit, ANCE - Tunisia
  Abbie Barbir, Bank of America
  Walid Kamal, Emirates Integrated Telecommunications Company
  Rakia Baccouche, Arab ICT Organization

12.30 Lunch Break and Networking

13.30 CONCURRENT BREAKOUT TRACKS

Choice of two interactive breakout tracks (interchangeable throughout the day)

EEMA TRACK L
- Chaired by Arkadiy Kremer, Russian Association of Networks and Services
> eID Working Within Governments
  • L1 (13.30 – 14.00)
  Balancing Security and Performance for Border Control eID Verification Systems
  Raoul D’Costa, 3M Security Systems
  • L2 (14.00 – 14.30)
  Norges Sildesalgslag - Adding Trust Services to Electronic Fisheries Documents
  Rod Crook, Ascertia
  Oivind-Harald Bolstad, Norges Sildesalgslag
  • L3 (14.30 – 15.00)
  Business Startup in Europe: Putting European eID into Practice
  Dinand Tinholt, SPOCS

OASIS TRACK M
- Chaired by Dinand Tonholt, SPOCS – the chair of this session is John Bradley, Protiviti Government Services
  • M (13.30 – 15.00)
  Federation to Federation: The Technical and Procedural Challenges to Cross-Organisation Federated Approaches
  Anthony Nadalin, Microsoft Corporation
  Don Thibeau, OpenID Foundation
  Detlef Hühnlein, secunet Security Networks AG

15.00 Tea / Coffee Break and Networking

15.30 Closing Keynotes

- Identity, Policy and Context for Cloud Services
  Rakesh Radhakrishnan, Principle Architect, Oracle
- Potential for Disruptive Innovation
  David Birch, Director, Consult Hyperion

16.30 Close of Conference

NOTE: Please note that this programme is subject to change
Europe’s only independent, interdisciplinary security conference and exhibition

Over the past decade, Information Security Solutions Europe (ISSE) has built an unrivalled reputation for its world-class, interdisciplinary approach and independent perspective on the e-security market.

This year, on 5-7 October 2010, ISSE will join forces in Berlin with the GI-SICHERHEIT conference, the highly respected bi-annual security event run by the German Informatics Society (Gesellschaft für Informatik, GI).

**Ascertia Ltd**

Ascertia is a global leader in delivering functionally rich yet easy to deploy security solutions. The company focuses on eID certificate validation as well as digital signature creation, verification, timestamping and secure archiving products. These deliver the essential trust services needed by governments and other organisations to conduct electronic business. Businesses need traceability, accountability and audit services plus clear originator authentication, signed approvals, assured data integrity and provenance to allow them to meet legislative, regulatory and internal controls requirements. Ascertia’s products enable these security options within ERP, ECM and CRM deployments and within major managed service provider solutions.

EEMA

Established in 1987, EEMA is an independent association of IT professionals, businesses and governments, providing business and technical networking opportunities at both local and regional levels in the broad areas associated with digital identity and its applications, including security. We enable members to share experiences and best practice by holding meetings and conferences, by facilitating working groups who produce reports on topical subjects, and by helping members to connect with the right person to help them solve business issues or develop beneficial business relationships. All work produced by members is available free to other members. Previous papers include: Towards Understanding Identity, Role Based Access Control – a Users Guide and Secure e-mail within a Corporate Environment.

GB Group

The most successful organisations recognise the value of understanding your individual identity - who you are, what you need and what you like. GB combines this concept of identity with technology to create an environment of trust so that organisations can connect, communicate and transact with consumers safely, responsibly and profitably. We call this identity management. GB Group has three complimentary identity management offerings:

- **Identity Verification** - combating ID fraud, money laundering and under-age gambling
- **Identity Capture and Maintenance** - providing accurate and up-to-date customer information for your contact strategy
- **Identity based Marketing** - understanding, targeting and retaining profitable customers

IdenTrust

The Trust Network (TN), administered by IdenTrust, is a worldwide Scheme for the provision of high-assurance trusted e-identity credentials issued through the worlds banks.

The TN provides a scale-able distributed architecture capable of underpinning multiple applications across multiple networks across multiple jurisdictions.

The TN used by Corporates, Governments and Banks is a contractual based framework which provides for Interoperability of eSignatures across geographies, industry verticles, products, and supply chains. It enables the effective management of the significant Operational Risks related to the issuance of, and reliance upon, electronic credentials in a networked world, addressing the fundamental problem of “Are you really are who you say you are?” at every stage of the transaction cycle.

Microsoft

Microsoft Forefront helps deliver end-to-end security and access to information through an integrated line of protection, access and identity management products.

Forefront Identity Manager - the successor to Identity Lifecycle Manager 2007 - dramatically simplifies enterprise identity management through end-user self service capabilities and IT administrator tools to automate tasks. It is a comprehensive solution for managing identities, credentials and identity based access policies across heterogeneous environments.

Everett UK

At Everett, we help our clients create value through personalising, securing and integrating existing and new ICT services in unprecedented timeframes.

Implementing these services poses a challenge for the modern day ICT organisation since it has to find a cost effective balance between user demand, organisational goals and rules and regulations.

Everett’s core activity is assisting organisations in this area with consultancy, implementation – using a tailored delivery model to turn solutions into value quickly - and support capabilities via our 24x7 solution support centre.

With over 100 consultants, Everett has offices in the Netherlands, the UK, Italy and India.

Nestor – Tor Vergata University

NESTOR is a research laboratory inventing and implementing IT solutions that enhance the efficiency, security, and privacy of trusted infrastructures. NESTOR focuses on identity and trust management in cooperation processes and the development of social networks supporting e-business and e-government. Network infrastructures developed by NESTOR are designed to facilitate complex cooperation schemes between multiple organisations and to overcome interoperability issues between the diverse IT systems involved. The resulting network architectures pave the way for novel and innovative e-services. As part of its research, NESTOR engages in national and international projects with a special focus on the area of public administration.

OpenID Foundation

The OpenID Foundation is an international non-profit organisation of individuals and companies committed to enabling, promoting and protecting OpenID technologies. Formed in June 2007, the foundation serves as a public trust organisation representing the open community of developers, vendors, and users. OIDF assists the community by providing needed infrastructure and help in promoting and supporting expanded adoption of OpenID. This entails managing intellectual property and brand marks as well as fostering viral growth and global participation in the proliferation of OpenID.
